Sherb To Meet Fritz Hanson At The Colonial Thursday Night

In what will probably be the last wrestling match of the season, Sherb meets Fritz Hanson, holder of the world's welter-weight championship belt, at the Colonial, April 23rd. Hanson has been wrestling for number of years, and has been a top-notch performer continuously since he fought his way through a three-days tournament to the possession of the Lord Lonsdale welter-weight title. Sherb has rather unfortunate matches here have been counter-balanced by successful ones abroad, and he is due to give the fans the best sport obtainable. He has just returned from a trip into New Brunswick, where he has been handling several young wrestlers for a few weeks, and Easter Monday he met Dan MacDonald, Canadian champion, and world's middle-weight belt holder, in a match for the world's title. The first fall went to Sherb after an hour and 28 minutes of hard wrestling. Both men were apparently exhausted, but after the rest they came back, and Sherb had a bar lock on MacDonald, and was close to gaining a fall, when MacDonald tapped Sherb on the back, who thinking it was the referee, arose, and MacDonald secured a toe hold that gave him the fall, after 20 minutes. The third fall went to the Canadian in 8 minutes with another toe hold.

For the Hanson-Sherb bout, Joe Kilboury, referee-extraordinary, will officiate.

### BASE BALL SATURDAY

Academy Boys To Play Littleton High

The base ball season will be inaugurated next Saturday afternoon, when Littleton High opens the 1914 Academy schedule. Both teams are more or less unknown quantities, especially the local boys, but there has been a large squad practicing daily, since the campus has been dry, and good material is on hand. With but one veteran on the team, competition for places is unusually keen, and a number of good fielding players have been uncovered, and several good throwing arms found. The line-up is still problematical for the first game and the initial line-up may not be permanent. The schedule:

April 25—Littleton at St. Johnsbury.  
May 2—Woodsville at St. Johnsbury.

May 8—Spaulding at Barre.  
May 9—Barre A. C. at Barre.  
May 16—Spaulding at St. Johnsbury.

May 23—Newport at St. Johnsbury.  
May 30—Lancaster at St. Johnsbury.

June 3—Lyndon Institute at Lyndon.  
June 6—Woodsville at Woodsville.  
June 11—Lyndon Institute at St. Johnsbury.

June 13—Newport at Newport.

The Academy track meet will be held May 9. On account of the desire of the boys last year to enter too many events, the number this year has been reduced to eight, four track and four field events. The graduation of a large number of point-winners of last year offers a splendid opportunity to novices to win places this spring.

### Cow Testing Association.

County Agent S. N. Stimson returned from Peacham last week after effecting the organization of a cow testing association of which the officers are: President H. Farrow; vice-president, W. B. Martin; secretary and treasurer, W. G. Darling. These with F. A. Goss and George Eaden constitute the board of directors. There are 28 members in the association owning 27 cows. All of the members of the association reside in Peacham except one who lives in Danville. This is the sixth cow testing association organized under the auspices of the Caledonia County Farmers' Association.

In addition to the work connected with interesting people in the cow testing association, Mr. Stimson has been continuing his demonstration work in trimming orchards. The association has purchased a spraying outfit which the agent will use to spray the orchards recently trimmed and others. Members desiring to have their orchards sprayed should promptly notify Mr. Stimson as operations will commence as soon as the roads are passable. The actual cost of material and labor is charged to the members but no charge is made for the agent's time. Mr. Stimson prunes two orchards in Barnet this week. Two men have now been assisting Mr. Stimson on orchard pruning for about six weeks. Members who wish to have their orchards pruned should not delay in communicating with Mr. Stimson.

Some 48 members have been taken in since the publication of the bulletin in January giving a list of the members.

As those who purchased chemicals through the association are under obligations to join, it being a condition under which the chemicals were ordered, it may be expected that during the coming month there will be an increase of 25 or 30 to the present membership.

## Fairbanks Scales

For over eighty years, the standard of accuracy and durability, they have stood the test and are still in the van. Every man weighs his ideas, naturally, why not weigh the product of his ideas, and so prove the idea practical?

## Beaver Board

Honestly it seems almost unnecessary for us to advertise it any more, still you'd probably forget if we didn't keep talking; it's got found out and for this reason it's found in (a good many places). Why, it sells almost as easily as hay or soap or any other necessity.

## Paint Up and Clean Up

We're going to start a Paint Up and Clean up Campaign. Do you wish to join us? If so send us your name; there'll be something doing when we get started. Did you ever think what a nice clean town this would be if everybody would take our advice to paint up and clean up?

When you think of Paint you almost unconsciously think of **Colonial Paint** (the best ever.)

Also if you think of **Cement** you naturally say "Atlas," the kind Uncle Sam used on the Panama Canal. Of course, we sell it.

We are selling **Flue Lining**, and its use is increasing. Just ask your insurance man if he knows what it is; he'll probably tell you emphatically that most fires are caused by defective flues, but our flues will prevent your house from getting afire.

Of course we could go on telling you about **Land Tile**, another good thing that the farmers are using more and more of, and **Pittsburg Fence**, the real thing in wire fence and a lot of other things that people use every day, but we don't want to monopolize all the advertising space even if the editor would let us.

Come and see us, it's a pleasure to tell you about our goods and if there are any drawbacks we'll tell you about those, too.

## THE PECK COMPANY
